

# How to use:

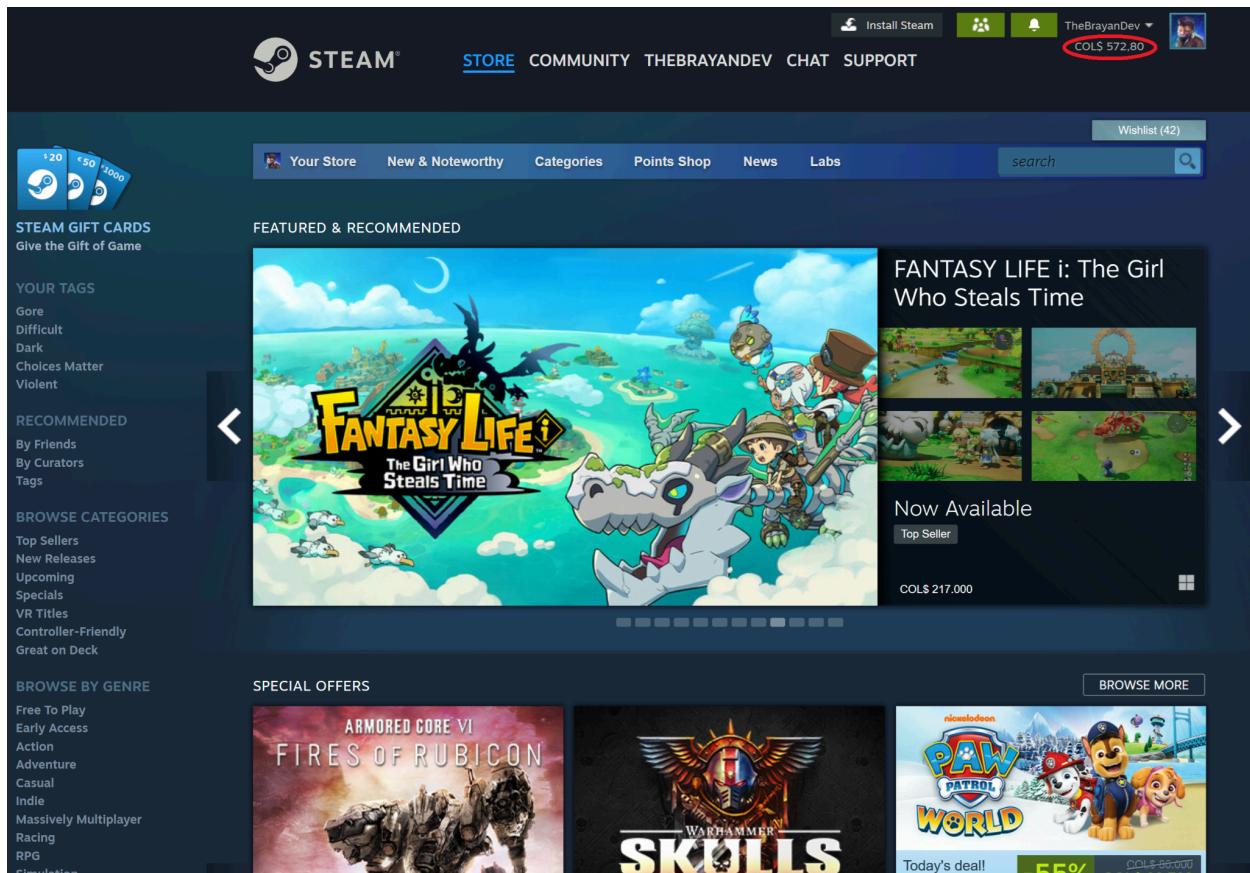

## Steam ID:

PC

Dirígete al sitio oficial de steam (<https://store.steampowered.com>) o a la aplicación de escritorio inicia sesión.

Da click sobre el saldo de tu cuenta, esto te va a redirigir directamente a los detalles de la cuenta.

[Imagen con nombre “how\_to\_use\_1.png”]

Estando acá, vamos a anotar o copiar el número correspondiente a nuestro “Steam ID”.

[Imagen con nombre “how\_to\_use\_2.png”]

The screenshot shows the Steam Account page for the user 'elbrayan1212'. The top navigation bar includes links for STORE, COMMUNITY, THEBRAYANDEV, CHAT, and SUPPORT, along with options to Install Steam, view friends, and notifications. The user's profile picture and name 'TheBrayanDev' are also present. The main content area displays the user's account details, including their Steam ID (76561198815929818), which is circled in red. The account has a wallet balance of COL\$ 572,80. A section for payment methods shows a MasterCard ending in [REDACTED] with edit and delete options. The contact info section includes email preferences and phone number management. The family settings section indicates that Family View is enabled. The sidebar on the left lists various account management options.

## elbrayan1212's Account

Steam ID: 76561198815929818

### Account details

- Store preferences
- Family Management
- Security & Devices
- Language Preferences
- Cookies & Browsing
- Notification Settings
- Gated Access Games

### Store & Purchase History

+ Add funds to your Steam Wallet

Wallet Balance **COL\$ 572,80**

The following payment methods are currently associated with your account.

MasterCard ending in [REDACTED] [Edit | Delete](#)

Update the payment method linked to this account

View purchase history

View licenses and product key activations

Update store preferences

Country: Colombia

If you have moved to a different country, you may be able to update your Steam Wallet and how you view the Steam Store.

Update store country

### Contact Info

Manage Email Preferences

Email address: [REDACTED]

Status: Verified

Change my email address

Manage your phone number

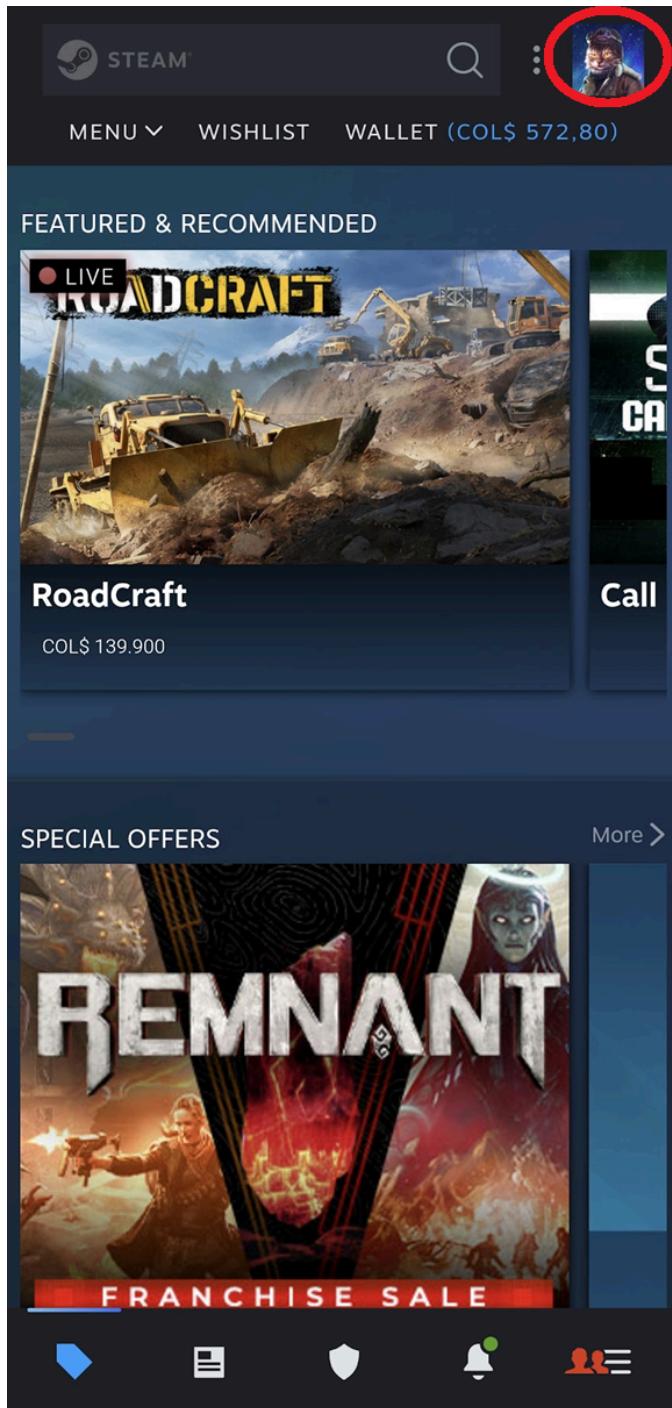

Phone: [REDACTED] Ends in 71

### Family Settings

Status: Family View is enabled, click the family icon at the top of the page to enter/exit Family View.

## APP MÓVIL

Para la app móvil, de igual forma iniciaremos sesión, y entraremos a nuestro perfil.  
[Imagen vertical (movil) con nombre “how\_to\_use\_3.png”]

Estando acá, entramos al menú de detalles de la cuenta (Account Details) y de igual forma obtenemos nuestro Steam ID.

A screenshot of a mobile application profile screen. At the top, there is a profile picture of a cat wearing a pilot's helmet, the username "TheBrayanDev", and a "View Profile" button. Below this are three stats: "95 Games", "15 Friends", and "COL\$ 572,80 Wallet". A large blue "Add friends" button is centered below the stats. The main content area is titled "MY CONTENT" and includes sections for "Friend Activity", "Friends", "Groups", "Screenshots/Videos", "Badges", and "Inventory". At the bottom, there are links for "Account Details" (with a red oval highlight), "Change Account", and "Sign Out".

## Steam API Key:

Para obtener nuestra key, visitaremos el siguiente enlace (<https://steamcommunity.com/dev/apikey>), donde lo mas probable es que tengamos el siguiente mensaje:

Something is wrong

Your account does not meet the requirements for a developer API key. Your account requires Steam Guard Mobile Authenticator.

Steam nos pide que el factor de seguridad en dos pasos con su aplicación móvil esté activado para la cuenta por temas de seguridad, para mas instrucciones sobre como activarlo consulte el soporte oficial de steam (<https://help.steampowered.com/en/faqs/view/7EFD-3CAE-64D3-1C31>)

Una vez activado el Steam Guard entraremos nuevamente a obtener nuestra API Key, donde se nos preguntará por el dominio de la página donde usaremos la API, este dominio es meramente para informar a la aplicación móvil de qué servicio requiere activar la API, entonces podemos escribir cualquier dominio que queramos, como ejemplo, usamos el perfil de GitHub. Marcaremos que estamos de acuerdo con los términos de uso y nos registramos.

[Imagen con nombre “how\_to\_use5.png”]

The screenshot shows the 'Register Steam Web API Key' page. The title bar is dark with light text. The main content area has a dark background with white text. It says 'Register for a new Steam Web API Key' and explains that registering will enable access to many Steam features from your own website. A 'Domain Name' input field contains 'https://github.com/TheBrayanDev'. Below it is a checkbox labeled 'I agree to the Steam Web API Terms of Use.' with a checked box. At the bottom is a green 'Register' button.

Luego se nos avisará que necesitamos confirmar esta acción desde nuestra app móvil, para lo cual vamos a abrirla y aprobar la solicitud.

Una vez aprobada desde Steam Guard, ya tendremos nuestra API Key, que junto al ID es todo lo que necesitaremos para hacer uso de esta herramienta.
